

Siphon Tubes

AIK's siphon tubes are made out of durable copolymer polypropylene for excellent impact resistance. The male threads are NPT standard threads to thread into a standard female NPT threaded coupling, boss, tank adapter or spin weld fitting or any other type of tank wall mounted fitting.

* See back for technical specifications

FEATURES

- Long extension of the siphon tube section allows for a higher tank wall mounting to avoid uneven wall surfaces
- Slotted ends on the siphon tube allows for excellent fill and discharge performance
- Moulded from copolymer polypropylene for great impact resistance
- Male threads are NPT
- Available in 1-1/2", 2", 3" and 4" sizes

PART #	DESCRIPTION	BOX QTY
SE015PP	1-1/2" x 12" Siphon Tube	40/Box
SE002PP	2" x 12" Siphon Tube	20/Box
SE002PPS	2" NPT Short Siphon Tube	20/Box
SE003PP	3" x 12" Siphon Tube	12/Box
SE004PP	4" x 12" Siphon Tube	7/Box
